Minor Deviation Applications Only

Findings

Sections of the Zoning Code varied from?

What is there about the size, shape, topography, location or surroundings of the subject property that makes it physically unique or special in contrast with other lots in the same zoning district?

Does this variance authorize an activity or use that is not authorized by the Zoning Ordinance?

Yes No

If yes, please explain:

Does the strict application of the Zoning Ordinance deprive the subject property of privileges enjoyed by other properties in the same vicinity and zoning district?

Yes No

If yes, please give examples:

3. Location or vicinity map.
 4. Existing and proposed building and structure footprints, including loading zones.
 5. Dimension and nature of all easements.
 6. Frontage streets: name, centerline, curb line, right-of-way, street widths, improvements and utility poles. (Proposed grades or streets if applicable)
 7. Location of water/sewer lines.
 8. Location of fire hydrants.
 9. Setback and yard distances and spaces between buildings and/or spaces between property lines and buildings.
 10. Detailed plan of landscaping showing the location, dimensions of landscaped areas.
 11. Driveways: show (A) all points of ingress and egress; (B) direction of ingress and egress; and (C) conflict points such as other driveways, streets or alleyways within 300 feet of proposed driveways (this can be on a separate plan).
 12. Parking layout showing sizes and location of each stall, back out area and driving aisles (indicate required parking).
 13. Handicapped ramps, parking, signs and pavement markings.
 14. Concrete header separating all paved vehicular areas from landscaping.
 15. Sidewalks and interior walks including ramps and curb ramps.
 16. Location, height and composition of walls and fences.
 17. Location of refuse containers.
 18. Location and method of lighting.
 19. Printed name, address, registration number and phone number or engineer/architect.
 20. Title block listing related case numbers.
 21. Existing contours (2 foot intervals) for projects site and adjacent topography within fifteen feet of the perimeter of the project site. Please note the effect of the proposed grading will have on adjacent properties.
 22. Proposed final grades shall be clearly shown and designated on plans along with cut and fill slopes. Slopes shall be clearly designated on plans and shall not exceed 2:1 unless approved.
 23. Show detail of any on-site walls and cribbing.
 24. Assessor's parcel number(s), legal description and project address.
 25. Existing and proposed zoning and General Plan designations.
 26. Square footage or gross and net acreage of property.
 27. Square footage of building and/or addition.
 28. Lot coverage (%).
 29. Square footage of landscaping: existing and proposed, and percent of landscaping, including trees to be removed.
 30. Building occupancy.
 31. Square footage of seating area or number of seats provided (if applicable).
 32. Construction type.
- b.** The Map must be prepared by a licensed land surveyor or a qualified registered civil engineer and drawn to an acceptable engineers scale. The Map must contain the following information:
1. The assessor's parcel number(s) for all involved properties.
 2. A north arrow (top of map north).
 3. Scale (number of feet per inch).
 4. Reference the applicable Section, Township, and Range.

5. Lot and record map information by separate instrument number or map.
 6. The existing lot configuration for all properties involved showing bearings and distances for all property lines, and any existing easements.
 7. The existing lot line(s) that is/are to be adjusted shall be shown as a dashed line and identified as "Old Lot Line," and the proposed lot line(s) shall be shown as a heavy solid line and identified as "New Lot Line."
 8. The proposed new lot line(s) shall include bearing(s) and distance(s).
 9. The proposed lot line adjustment must be designed in such a manner that the proposed lot line(s) will not laterally intersect a graded manufactured slope, and will not allow drainage from the tributary area above a manufactured slope to sheet flow over the slope face. A note shall be placed on the Map indication "The proposed lot line will not laterally intersect a graded manufactured slope." And "No drainage from the tributary area above a manufactured slope will sheet flow over the slope face."
 10. An original stamp and wet-signed signature of the licensed land surveyor or qualified registered civil engineer's who prepared the Map.
 11. The date the Map was prepared.
- c. The Legal Description includes the following:
1. The Legal Description Exhibit must be prepared and stamped by a licensed land surveyor or qualified registered civil engineer.
 2. The legal description for each adjusted property shall be clearly identified and written, and shall include an acreage (or square footage) calculation for each property.
 3. An original stamp and wet-signed signature of the licensed land surveyor or a qualified registered civil engineer.
- d. Additional fees may be required.
1. **PLEASE CALL COMMUNITY DEVELOPMENT DEPARTMENT TO VERIFY FEES**
